Ex-PRESIDENT HAYES AND ME. BLAINE.

—A paragraph recently went the rounds of the pross purporting to give some disparaging and abusive remarks made by ex-President Hayes about Secretary Blaine. The Secretary wrote a note to the ex-President inquiring into the authenticity of the re-port. Mr. Hayes replied at once, concluding in these words: "I have to state that the whole paragraph in which your name oc-curs is a fabrication, and that not one of the curs is a moreation, and that not one of the statements contained in it referring to you was either made or authorized by me." The ex-President had previously written to President Garfield disclaiming and denying all the reports that attributed to him any reflections or adverse comments upon the policy or measures of the Administration.

The Comet. A correspondent, Geo. Clark, jr., writes us as follows of the comet seen this morn-

ing:
This early morning while viewing the beautifulphe nomena in the eastern sky, of the moon and planets I happened to turn my eyes to the northeast and to my surprise and delight I saw there a magnificent comet. My first observation was about 3 o'clock. It was then about fif-teen degrees above the horizon and fortyfive degrees north of the moon. The nucleus of this brilliant object was clearly defined and in size nearly as large as Venus now appears. The tail was dis-tinctly visible and from four to five degrees

in length, and as a whole very much re-sembled the comet of 1819. A dispatch from London dated to-day says:
"The new comet visible in the northern

night long.
